*Mature skin reflects a life story; its wrinkles speak of its experiences and its gestures evolve over the years.*

*Signs of aging tell each person's story, a complex process caused by the confluence of several factors that trigger **chronological aging, energetic aging, hormonal aging** and, therefore, aging skin due to the passage of time, genetics, environment, emotions and experiences.*

Typical of very mature skin, these processes cause intense discomfort due to an uncomfortable feeling of tension; lines and wrinkles become more pronounced, flaccidity is accentuated, and the skin generally appears devitalized, dull and lackluster.

Therefore, at this stage of life it's **essential to use a treatment that works as a true absolute recovery**, a mature skin rejuvenator that restores perfect comfort and balance to enhance the natural beauty of age.

## HOW DO THESE FACTORS PLAY A PART IN THE AGING PROCESS?

---

Three key processes are responsible for advanced skin aging.

1. **Energetic aging** is the reduction in the energy available to cells. When this energy decreases, it leads to poor cell function, which causes a decline in the skin hydration, regeneration, renewal and repair processes, as well as a deterioration and reduction in the quality and synthesis of the molecules responsible for its elasticity and firmness.

2. Meanwhile, **hormonal aging** (deficiency and/or imbalance) in both men and women (menopause and male menopause) causes changes in the body that directly affect the skin. This hormonal imbalance causes

collagen, hyaluronic acid and elastic fibers to decrease and their quality to deteriorate, leading to a thinning of the skin, which appears finer and more fragile.

3. Lastly, we have **chronological aging** caused by endogenous factors (genetically programmed aging) and exogenous factors (environmental agents, lifestyle, emotional well-being). This type of aging causes loss of skin cell activity due to a slower metabolism and consequently, the already visible signs of aging become worse.

CASMARA Research Center aims to reverse these three processes with Q10 RESCUE, **a highly energizing, rebalancing and nourishing restorative shock treatment combining latest-generation active ingredients and technologies: SMART Q10 GPS TECHNOLOGY, hormone precursors and  $\beta$ -endorphins and active**

## • WHO IS IT SUITABLE FOR?

Formulated both as a **shock treatment** to rejuvenate all **very mature skin types (+60)** or as a **complementary treatment for mature (+45), malnourished, dry, devitalized and/or dull skin** showing or starting to show the imbalances typical of menopause, pre- or post-menopause.

## • MAIN ACTIVE INGREDIENTS

### COSMETIC RADIOFREQUENCY

World-exclusive cosmetics inspired by radiofrequency that act on deep skin layers, providing a genuine **cosmetic radiofrequency** effect.

**Anti-wrinkle** and **anti-flaccidity** active ingredient that improves the biomechanical activity and contractile power of fibroblasts while greatly

# Q10 Rescue NUTRI TREATMENT

COSMETIC RADIOFREQUENCY

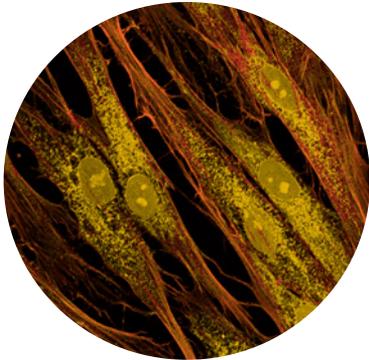

increasing collagen fiber production, producing a significant restructuring effect that **combats wrinkles and flaccidity from inside the skin.**

## Q10 GPS

**Bioenergetic** system with microencapsulated Q10 and GPS high technology that achieves a double geolocation, first the fibroblast and then the mitochondrion inside, where it intelligently releases the active ingredient, achieving 100% effectiveness on the target. In the mitochondrion it **greatly increases cell energy production** and reduces the oxidative stress that prevents the mitochondrial energy system from functioning correctly. This extra energy reactivates the cells and increases fibroblast activity, strengthening the skin structure and **intensely revitalizing and rejuvenating the skin.**

## NEW YOUTH

**100% natural balancing and restorative active ingredient** made with concentrated monk's pepper berry extract

that stimulates the autonomous synthesis of hormone precursors and  $\beta$ -endorphins in the skin to mitigate the effects of their decline, which occurs with age and menopause.

NEW YOUTH induces collagen synthesis, decreases MMP (metalloproteinase) levels and **increases skin thickness and hydration**. This revolutionary active ingredient helps to stimulate fibroblast proliferation, as well as keratinocyte differentiation and migration, thus **increasing skin density and elasticity while reducing wrinkles**.

## ADVANCED NUTRICARE

Exquisite blend of five **highly nourishing** plant oils, carefully selected for their advanced action. This complex provides all the necessary nutrients to correctly **restore** mature skin. The combination of four of the richest oils such as **argan, tsubaki, ximenia and olive oil concentrate**, deeply nourishes, **prevents dehydration** and **restores dry skin**, leaving it soft, plump and revitalized.

This combination is enhanced by precious **Arctic algae oil**, a rejuvenating active ingredient par excellence that **reverses the cell aging process**. Protects the cell DNA (protects nucleus functionality and integrity), reactivates the metabolism, increases energy production and promotes cellular cleansing, thus **truly rejuvenating aging cells**.

## CHRONO BALANCE

Smart **epigenetic**

**regenerating and hydrating**

**active ingredient** that supports the skin's day/night rhythms by regulating the so-called clock gene expression. The active ingredient promotes and strengthens skin functions during the day and night, increasing **moisturizing and protective factor** production by day and promoting the **regeneration and repair process at night**.

### • ACTIONS

**RESTORATIVE:** restores optimal skin function, recovering the metabolic rate typical of younger skin.

**ENERGIZING:** provides high energy levels at the key point, right where the skin needs it to be reactivated.

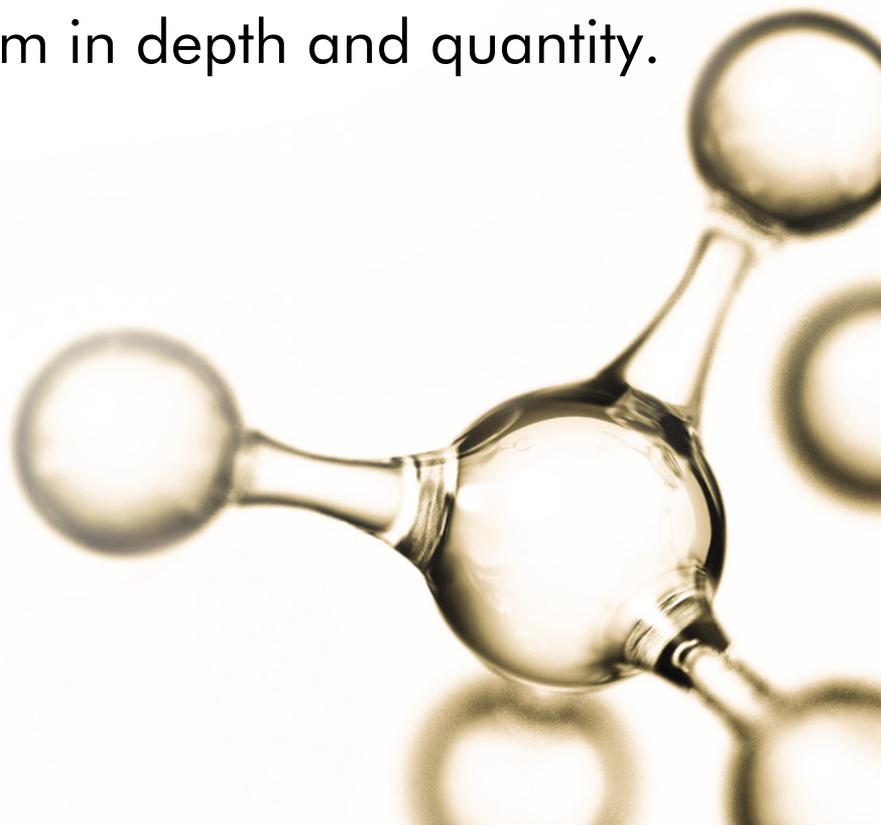

# Q10 Rescue NUTRI TREATMENT

# TREATMENT PHASES

## Q10 Rescue NUTRI TREATMENT

### PHASE\_1 RENEWING & ENERGIZING

**RENEWING AND ENERGIZING** peel made with succinic acid and a biotechnological enzyme exfoliant. Renews the outermost skin layers (stratum corneum) and energizes the inner layers responsible for stimulating correct skin function and increasing facial vitality.

**APPLICATION METHOD.** Time: 8 min. approx.

First, cover the eyes with two damp cotton wool pads. Then, wet a CASMARA towelette

# Q10 Rescue NUTRI TREATMENT

COSMETIC RADIOFREQUENCY

with tepid/warm water and use it to cover the face. Pour the contents of the vial over the top and brush over the towelette to help the phase penetrate.

Next, remove and wrap the towelette around your hand and rub in circular motions over the neck, décolleté and face for several minutes, so that you're adding the mechanical action of friction and sloughing away impurities, while helping to continue distributing and penetrating the product.

There is no need to rinse this phase. Finally, dry with two paper tissues.

PHASE **2**

NOURISHING  
& REJUVENATING

# Q10 Rescue NUTRI TREATMENT

COSMETIC RADIOFREQUENCY

NOURISHING AND REJUVENATING phase in a sublime oil texture. Made with ADVANCED NUTRICARE, a blend of five exquisite highly nourishing and deeply penetrating oils. Multi-action complex capable of repairing the damage caused by aging and protecting the skin, delaying the appearance of the signs of aging while providing the skin with a pleasant feeling of comfort. A highly nourishing phase rich in vitamins and essential fatty acids that promotes cell regeneration and renewal, acting as a real "injection" of youth for the skin.

**APPLICATION METHOD:** we recommend application with radiofrequency to enhance

# Q10 Rescue NUTRI TREATMENT

COSMETIC RADIOFREQUENCY

the results, thus giving the treatment a double radiofrequency action.

- APPLICATION WITH DEVICE: we recommend application with radiofrequency according to the instructions of each device (+ 15 min.).
- MANUAL APPLICATION: **use an active massage** to aid penetration on the face, neck and décolleté (tapping, fan brushes, etc.).

PHASE\_3

## ENERGIZING & REBALANCING

ENERGIZING AND REBALANCING phase (GPS TECH). An advanced combination of active ingredients that provides the dose of energy

# Q10 Rescue NUTRI TREATMENT

COSMETIC RADIOFREQUENCY

needed for the cells to function correctly (Q10 GPS). Stimulates hormone precursor synthesis and rebalances  $\beta$ -endorphin levels (NEW YOUTH), deeply restoring and reactivating the skin.

Its Q10 bioenergetic system with GPS technology increases energy production inside the cell and reduces oxidative cell stress, restoring correct mitochondrial energy system function.

Thanks to this phase, a double repair is achieved; the skin recovers the energetic and hormonal balance typical of younger skin.

**APPLICATION METHOD.** Time: 8 min. approx.

Apply using a full relaxing massage to the face, neck, décolleté and arms until the product has totally penetrated.

# Q10 Rescue NUTRI TREATMENT

COSMETIC RADIOFREQUENCY

PHASE\_4

## FIRMING & ANTI-WRINKLE (Radiofrequency Tech)

FIRMING AND ANTI-WRINKLE phase with COSMETIC RADIOFREQUENCY that provides a contrast due to its gel-cream texture. This exclusive phase produces a significant restructuring effect, combating wrinkles and flaccidity from inside the skin and providing the face with all the benefits of conventional radiofrequency.

This advanced active ingredient is blended with organic Silicon and bioavailable Vitamin C to further enhance the firming and anti-aging action of this phase. As a result, the new collagen produced is of excellent quality, supporting not only its synthesis but also its

# Q10 Rescue NUTRI TREATMENT

COSMETIC RADIOFREQUENCY

subsequent stabilization and organization within the skin structure. Thanks to this fusion, we see a spectacular firming effect that combats flaccidity and reduces the number, depth and length of wrinkles.

Furthermore, vitamin C provides an extraordinary antioxidant and brightening effect.

This phase has a warming effect, which enhances the cosmetic radiofrequency and provides an intense feeling of well-being.

**APPLICATION METHOD.** Time: 8 min. approx.

*WARNING: do not apply to the eye contour or to areas with rosacea or other vascular disorders.*

Apply in drops to the forehead, cheekbones and décolleté. Distribute over the area (face, neck and décolleté) without activating it, only so that the product covers the skin well and penetrates. Then, perform an iron-effect massage using slow and long symmetrical movements with the index and middle fingers of both hands. Thanks to these movements and the internal release of

# Q10 Rescue NUTRI TREATMENT

COSMETIC RADIOFREQUENCY

heat, the skin is truly "ironed".

The skin remains cool on the outside, but experiences a pleasant feeling of warmth inside, the intensity of which will depend on customer sensitivity.

PHASE\_5

## ENERGIZING & BRIGHTENING ENERGY C 2035

Algae Peel-Off Mask made with marine algae extract, creatine and vitamin C that provide intensely moisturizing, energizing and brightening qualities. Creatine helps to intensely revitalize the face and increase energy

# Q10 Rescue NUTRI TREATMENT

COSMETIC RADIOFREQUENCY

availability, restoring lost cell vitality caused by energetic aging.

The combination with vitamin C helps to intensely brighten the skin and even the tone, as well as softening and preventing the appearance of dark spots typical of senile aging.

Rich in algae from Brittany, France, carefully selected for their fantastic properties, its composition uniquely rehydrates and tones the face.

**APPLICATION METHOD.** Time: 20 min. approx.

*See manual inside treatment box.*

Once the mask has been applied to the face, we suggest working with a roller massager over the entire surface (do not apply pressure, otherwise the mask will break).
