WHY DOES OUR SKIN AGE?

Our body is a universe of interconnected elements. A complex system in which the skin, an extraordinary organ, is connected to the nervous system from the start, since they were formed in the same embryonic layer.

That is why there is an infinity of nerve endings in the skin that send signals through neurotransmitters to our brains, which in turn respond.

The latest advances in Medicine and Biology clearly show that due to this connection, the aging process highly depends on how our brain reacts to the stimuli received through the nervous system.

Any type of sensory stimulation, thought or emotion is interpreted by the brain, and its response, whether positive or negative, is reflected in the skin. For this reason, it is so important to understand that a state of inner wellbeing will be reflected on the outside, hence, the importance of achieving a perfect balance between body and mind.

Current trends such as wellness and neurocosmetics show how positive experiences help to restore this harmony, exerting a powerful rejuvenating action on the skin.

In addition, these studies show that within the aging process of the skin, the information that DNA contains (genomics), how genes act (epigenetics) and the biological rhythms of our body—such as the sleep/wake cycle (circadian rhythms)—are key to getting younger-looking skin, because aging is produced by the combination of damage caused by the metabolic wear of the cell, controlled in turn by its genetic load.

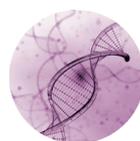

Recently, it has been discovered that in the aging process, there is a shortening of structures called telomeres, which are the ends of chromosomes and that are essential as they protect DNA from degradation.

This shortening of the telomeres is closely associated with aging, which is why it has been possible to demonstrate the causal

relationship between shortening and cell death, and therefore of its functions.

Thus, INFINITY acts at the outset of the aging process, fighting against it in an extremely effective way.

These discoveries open new horizons in skincare, reaching beyond its structure to unimaginable levels.

FUTURE | N|G|E | TECHNOLOGY

YOUTH ACTIVATOR:

The CASMARA Research Center has defied the laws of time by fusing together all the latest medical-scientific advances, in a collection of intelligent cosmetics with ultra-rejuvenating action—acting directly on DNA (**genomics**), the expression of genes (**epigenetics**), the nervous system (**neurocosmetics**) and circadian rhythms (chrono-cosmetics), thus helping fight aging from the very beginning in an extremely effective way.

A new revolutionary cosmetic concept that reverses the signs of aging in a holistic way with extraordinary results.

This sensory cosmetics with futuristic technology promise sensations and pampering capable of transporting you to another reality, ensuring that your skin radiates youth and beauty with an intense feeling of well-being.

CASARA

WHAT IS IT?

INFINITY is a unique collection with **ultra-rejuvenating** action that fuses neurocosmetics, genomics, epigenetics, chrono-cosmetics, wellness and regenerative cosmetics.

A new and revolutionary cosmetic concept that fights aging in a holistic way, achieving extraordinary results.

WHO IS IT SUITABLE FOR?

Formulated for mature skin looking for intense rejuvenating facial skincare.

Especially indicated to combat lack of firmness, deep wrinkles and very pronounced expression lines.

OUTSTANDING ACTIVE INGREDIENTS:

ETETERNAL BEAUTY

Revolutionary active ingredient with **genomic technology**, capable of preventing the shortening of telomeres, determining DNA protection in the skin aging process and avoiding its degradation.

Extraordinary **anti-aging** active ingredient that slows down the aging process while visibly reducing the facial signs of aging.

CHARDONNAY GRAPE EXTRACT

Innovative **rejuvenating** active ingredient with **epigenetic technology** that improves the functioning of the regulatory genes of skin metabolic cycles (circadian rhythm Sleep/Wake).

During the **DAY**, it helps the skin restore its optimal levels of hydration and protects against oxidative damage.

During the **NIGHT**, it helps activate the regeneration process while repairing the damaged structures.

This active ingredient stimulates global rejuvenation.

COMPLETE FACIAL TREATMENT YOUTH ACTIVATING

INFINITY TREATMENT PROFESSIONAL USE ONLY.

MELATONIN

Renewing-wellness neurocosmetic active ingredient based on the so-called youth hormone that has an intense perfecting effect on the skin, while providing an intense sense of well-being.

Melatonin performs 3 key actions that slow down aging: it regenerates damaged cells, increases their energy levels and reinforces their protective barrier. 3 key actions for good skin condition.

MORE ACTIVE INGREDIENTS:

5 GROWTH FACTORS

Extraordinary repair formula based on 5 growth factors similar to those needed to form humans in the embryonic stage. Present in the blood plasma, these proteins dramatically decrease in adults causing the acceleration of skin aging. This complex innovative active ingredient restores the regenerative capacity of young skin in mature skin while acting in synergy to give the skin an extraordinarily rejuvenated appearance.

PERSIAN SILK TREE EXTRACT

Anti-fatigue and illuminating active ingredient with **chrono-cosmetic** technology that combats signs of fatigue such as eye bags and dark circles, in addition to preventing the appearance of alterations in the mature skin (uneven and dull) tone.

The appearance of these unsightly signs is due to glycation, a process by which the proteins responsible for the firmness and elasticity of the skin are damaged causing the skin to look flaccid, especially in the eye contour. This conflictive process increases with age, specifically after the age of 35. Persian silk extract cancels out this negative process so that the skin is intensely relaxed and fresh, like after a good night's sleep.

EDELWEISS

Flower native to the Pyrenees, the Alps and the Himalayas, rich in leontopodic acid with **firming** properties. It produces an immediate lifting effect with surprising results. Protects the skin against oxidative stress and restores its firmness by repairing the mitochondrial activity. Also protects the extracellular matrix and promotes collagenesis.

Its lifting effect is visible even in the skin of the neck: the flaccidity in this delicate area is reduced up to 56% in just 3 weeks.

LAVENDER

Ancient active ingredient used in ancestral beauty rituals with unique **anti-wrinkle and anti-stress** properties, characteristic of Ayurvedic and Buddhist medicine.

The innovation of this active ingredient lies in the combination of its double action: anti-wrinkle and anti-stress. It is able to inhibit involuntary muscle contractions, typical of chronic stress, while rebuilding the epidermis by erasing visible wrinkles.

The combination of these actions produces an instant anti-aging effect.

TREATMENT PHASES

INFINITY TREATMENT

01
PHASE

SENSORY PURIFIER

Detoxifying cleansing face mask enriched with **MICRO-ENCAPSULATED CHARCOAL** that, thanks to its sphere particles, gently exfoliates while at the same time intensely cleanses the skin from impurities and toxins (pollution), leaving it soft and purified. This original face mask leaves a pleasant warming effect, producing a micro activation of the treated area, enhancing its purifying action, as well as the penetration of the active ingredients that are applied subsequently at the different phases of the treatment.

Method of application: time 6 min.

Apply it dry, gently patting in with the fingertips, onto clean face and neck, until the charcoal is released, breaking all the particles (observe the change of color to dark gray). Continue working with circular movements, wetting it continuously with water to activate the heat effect for 6 minutes.

It is recommended to remove the entire product with moistened sponges. As a final step to ensure an optimal removal of the phase, use CASMARA cleansing facial wipes moistened with clean water.

02
PHASE

ULTRA REPAIR MASK 3030. *Wellness firming*

Ultra-repair ionizing phase* of fluid texture that blends **5 GROWTH FACTORS** and **JAPANESE SPRING WATER (ONSEN)**. Extraordinary formula that enhances cell division and renewal, and intensively repairs damage produced in the cells. Japanese spring water stimulates and energizes the skin, in addition to modifying its permeability, enhancing the penetration of the active ingredients that are applied thereafter.

(*) The ionization of this phase is optional.

Method of application:

OPTION 1: Hand application. Apply with an active massage until completely absorbed.

OPTION 3: Application with different equipment than BEAUTYGUN. Apply the contents of the vial and then use sufficient Meso Treatment Gel, if so required by the chosen equipment, to cover the specific time needed for the equipment used. Work using the electrode with the positive pole (+).

03
PHASE

INTENSIVE ANTI-AGING Genomics and Chrono-cosmetics

Revolutionary phase, gel texture, enriched with an extraordinary blend of **anti-aging** active ingredients **ETERNAL BEAUTY**, **CHARDONNAY GRAPE extract** and **PERSIAN SILK TREE**.

It is the only formula in the world that protects DNA, slowing down its aging process while enhancing the repairing and moisturizing activity of the skin. It combats the signs of fatigue such as under-eye bags and dark circles, as well as the appearance of uneven and devitalized skin tone related to mature skin.

This innovative phase is able to rebalance the synthesis of melatonin, the so-called youth hormone, improving skin condition, as well as leaving an intense feeling of wellness.

Method of application: time 10 min.

Apply using a deep massage until complete absorption.
