## ACTION

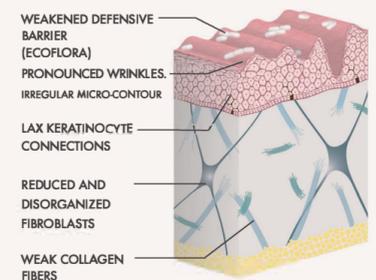

- Strengthens the skin's first defensive barrier (microbiota).
- Forming a protective shield against pollution and preventing oxidation.
- Improves the skin's biosensorial capacity.
- Stimulating collagen synthesis and improving keratinocyte cohesion.
- It accelerates the process of cell renewal.
- An optimal mix of moisturisation and nutrition.

## RESULTS

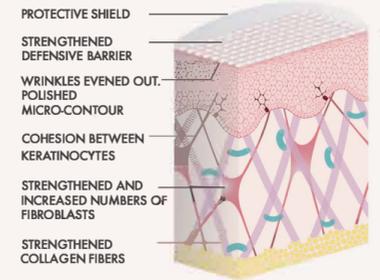

- Stops, prevents and improves the already visible signs of aging.
- Strengthened and balanced skin.
- Protected, healthy and radiant face.
- Redensified, turgid skin. Diminishes the quantity and depth of wrinkles.
- Renewed and radiant skin.
- Intensely moisturized and nourished skin with a silky smooth texture.

## WHO IS IT SUITABLE FOR?

Suitable for all skin types, including sensitive, reactive, altered skin wanting to prevent and/or combat signs of aging.

## MAIN ACTIVE INGREDIENTS

**PRO & PREBIOTIC COMPLEX:** Anti-aging 360° active ingredient. It contains probiotics and prebiotics that strengthens the skin's first defensive barrier. It prevents dehydration and malnutrition, while canceling the effects of external agents that cause aging.

It redensifies the skin and produces a reduction in wrinkles, both in quantity and depth. Powerful cell renewal.

**DRY OIL COMPLEX:** A new nutritious dry oil complex, formulated with olive, almonds and apricot oils, combined with Korean licorice extract giving the skin an exquisite texture and significant anti free radical power.

**POLLU-BLOCK:** Detoxifying natural active that forms a shield against pollution. It achieves this by forming a biomatrix providing a barrier against three pollutants: Ultraviolet light, atmospheric pollution and chemical agents. It nullifies their effects on the skin and favors their elimination.

**JOJOBA AND BEES WAX COMPLEX:** Active ingredient based on jojoba wax and beeswax with innovative carrying properties, in addition to long-lasting moisturizing effects with a rich texture yet light at the same time.

An intelligent natural active ingredient which adapts to climate providing an extraordinary sense of well-being in any weather or season.

PRO & PREBIOTIC TECHNOLOGY

Probiotics and prebiotics, advanced, natural, anti-aging, active ingredients.

The skin is protected against external agents that cause aging by creating a defensive barrier. The PROBIOTICS form part of the outermost layer of this barrier (Eco-flora) and have the power to strengthen natural defense capacity avoiding the appearance of unsightly signs produced by the passage of time. Scientific research has shown that a good condition of this barrier (Eco-flora), is essential for keeping skin young.

The PROBIOTICS and our bodies are natural allies as they perform vital functions. In order to maintain a proper balance and function it needs to receive nourishment from PREBIOTICS to stimulate activity and growth.

The CASARA Investigation Center has created AgeDefense, an exclusive beauty plan with an advanced 360° anti-aging system with PRO & PREBIOTIC TECHNOLOGY.

The exclusive and unique formulation based on probiotics (*Lactobacillus* and *Lactococcus*), prebiotics and other technologically advanced natural active ingredients to provide the skin with exclusive anti-aging care.

AGE DEFENSE is a 100% natural beauty plan developed with the most advanced technology that treats the skin in a pioneering way, as never before.

Helps rebalance the skin and cutaneous microbiota while providing 360° total anti-aging facial care.

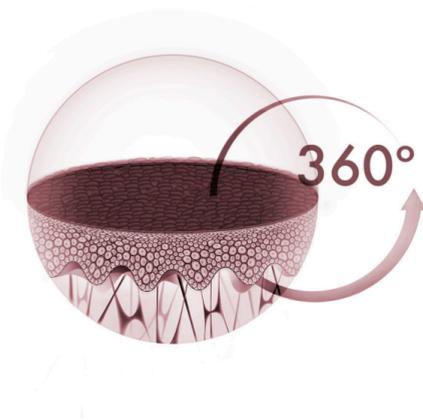

AgeDefense with a 360° SYSTEM

Natural anti-aging system.

360° SYSTEM is an innovative anti-aging system that fights from inside and out all the signs associated with aging. Slowing the apparition of said signs and improving those already visible.

360° SYSTEM is a unique and exclusive system that operates at two levels. It provides specific active ingredients acting externally to reinforce the skin's first defensive barrier (Eco-flora) and internally to give the skin back its youthful levels. Thus ensuring an extraordinary and effective overall anti-aging care.

PROFESSIONAL ECO-NATURAL FACIAL TREATMENT  
AGE DEFENSE TREATMENT

WHAT IS IT?

**AgeDefense** an exclusive beauty plan with an advanced 360° anti-aging system with **PRO & PREBIOTIC TECHNOLOGY**. Formulated with probiotics, prebiotics and other technologically advanced natural active ingredients, with which **AgeDefense** acts in a revolutionary way by **strengthening the skin's first defensive barrier** creating a protective shield against time, fighting all the signs associated with aging from inside and out.

It takes care of your skin inside and out thanks to the action of innovative natural active ingredients with natural anti-aging effects that slow, prevent and correct the signs of aging, keeping the skin young and healthy.

WHO IS IT SUITABLE FOR?

Suitable for all skin types, including sensitive, reactive, altered skin wanting to prevent and/or combat signs of aging. Unisex formula. Suitable for every season.

MODE OF ACTION

**PRO & PREBIOTIC COMPLEX:** double action active ingredient. It contains probiotics *Lactobacillus*, *Lactococcus lactis* (Microorganisms) and prebiotics *alpha-glucans* and *inulin*.

**It strengthens the skin's first defensive barrier** creating a protective shield against time. It prevents dehydration and malnutrition, while canceling the effects of external agents that cause aging.

**It redensifies** the skin by stimulating collagen synthesis and improving keratinocyte cohesion. *In vivo*, the **anti-wrinkle action**, produces a reduction in wrinkles, both in quantity and depth. It stimulates skin cell function. It induces the production of key ingredients in the development and regeneration of this function, accelerating **cell renewal**.

**D-PROTECT:** A combination of probiotics (*Lactobacillus casei* y *Lactobacillus acidophilus*) and prebiotics (*oligosaccharides*) which increases defensins creating a defensive barrier that

strengthens and prepares the skin to fight pathogen substances responsible for premature aging. At the same time, it restructures the micro-contour of the skin smoothing it and providing an immediate reflection of light on the skin.

The result is a protected and radiant face.

**POLLU-BLOCK:** Innovative **detoxifying-antipollution** active ingredient. This active ingredient (Biosaccharide gum-4) forms a **shield against pollution**. It achieves this by forming a biomatrix providing a **barrier against three pollutants:** Ultraviolet light, atmospheric pollution and chemical agents. It nullifies their effects on the skin and favors their elimination; thus limiting oxidation damage - the cause of premature aging.

**JOJOBA AND BEES WAX COMPLEX:** A natural ingredient that enhances the penetration of all active ingredients in AgeDefense, a prodigious active ingredient based on jojoba wax and beeswax with innovative **carrying properties**, in addition to **long-lasting moisturizing** effects.

**SKINADAPT:** Active ingredient (*Lactococcus lactis*) probiotic technology that **stimulates the skin's biosensorial capacity**, helping it to adapt quickly and effectively to external aggression. It strengthens the skin's defenses turning them into an alarm system against external damage responding to possible attacks annulling their effects on the skin. It acts positively on the speed and **quality of epidermal growth**. The production of essential proteins and enzymes related to the quality of the skin is increased.

**DRY OIL COMPLEX:** A new **nutritious** dry oil complex, formulated with olive, almond and apricot oils, combined with Korean licorice extract giving the skin an exquisite texture and significant **anti free radical** power.

**ACTIDEFENSE:** *Plantago-aquatica* rhizome *alisma* peptides (aquatic plant). An active ingredient which, by means of a similar mechanism to that of probiotics, **causes an overall improvement of the skin's mechanical and biological barrier**.

TREATMENT PHASES

AGE DEFENSE TREATMENT - PRO & PREBIOTIC TECHNOLOGY

1 PHASE

Preparatory phase:  
Renovating-perfecting.

Exfoliating gel formulated with **LIME CAVIAR**. An innovative natural chemical peeling product with a similar pH to our skin. It removes dead cells and toxins. It improves skin microrelief and unifies tone.

**Method of application:** Time 6 min approx.

Apply half of the content of the ampoule manually or with a brush to the face, neck and neckline avoiding the eye area. Then, with the fingertips, massage in circular maneuvers until completely absorbed. When the product has been completely absorbed by the skin leave the product for 3 minutes and then rinse with water. Repeat again this step with the rest of the content and let it act for another 3 minutes. **DO NOT RINSE WITH WATER.** This **INNOVATIVE** peeling treatment is left on the skin as it works on the area both short and long term.

2 PHASE

The defensive, restructuring and illuminating phase.

Formulated with a **D-PROTECT** and **JAPANESE CEDAR extract**. It strengthens and prepares the skin to fight pathogen substances responsible for aging. It accelerates the reconstruction and improves epidermal cell cohesion. It polishes the micro-contour of the skin illuminating the face.

**Method of application:** Time 8 min approx.

Apply with an active massage to the face, neck and neckline until completely absorbed.

3 PHASE

360° anti-aging phase.

Anti-wrinkle, detoxifying-antipollution, restorer, renovator, redensifying and moisturizing.

**It strengthens the skin's first defensive barrier.**

Emulsion formulated with a **PRO&PREBIOTIC complex**, an active ingredient that fights from inside and out all the signs associated with aging. The extraordinary anti-aging effect of this active ingredient is complemented by the innovative ultra moisturizing active ingredient and carrier **JOJOBA & BEES WAX** formulated with jojoba wax and bee wax, **POLLU-BLOCK**, detoxifying- antipollution active ingredient and **DRY OIL COMPLEX**, a nutritious dry oil complex with anti free radical power.

**Method of application:** Time 8 min approx.

Apply with localized massage to the face, neck and neckline until completely absorbed.

4 PHASE

Protective-nourishing phase.

A cream with **SKINADAPT** with PROBIOTIC technology that stimulates the skin's biosensorial capacity and improves the quality of epidermal growth. This phase highlights the **DRY OIL complex**, formulated with olive, almond and apricot oils, combined with Korean licorice extract with important anti free radical power. The **ACTIDEFENSE** active ingredient causes an overall improvement of the skin's physical and biological barrier and maintains an optimum moisturisation level. As a result there is an improvement in the appearance of the wrinkles.

The ultra nourishing action of this phase is provided by the **MACADAMIA OIL**. It deeply nourishes the face restoring a young, healthy appearance.

**Method of application:** Time 8 min approx.

Apply with an active massage to the face, neck and neckline for 4 minutes and end with a relaxing massage until completely absorbed.

5 PHASE

PREBIOTIC IONISABLE MASK 3020

360° ANTI-AGE face mask with IONISABLE technology. Innovative mask formulated with **PREBIOTICS** lactose rich lactic acid, minerals and vitamins A and B. It gives the face an innovative and potent overall anti-aging effect. It reinforces the skin's natural defenses, intensely moisturizing and invigorating the same.

It allows you to use iontophoresis technique by getting the ionisable active ingredients to penetrate to deeper levels, thereby enhancing their properties.

**Application Method:** Time 20 min approx.

1. Empty all the contents of the **Phase 1** sachet into a bowl, to which you add all the contents of the **Phase 2** sachet.
2. Mix both components with the aid of a spatula energetically for approximately 30-40 seconds, until an even mix is achieved. Warning: If the components are not evenly mixed this could CAUSE THE MASK NOT TO SET CORRECTLY.

3. With the same spatula apply and extend the mask to the face (including eyes). The mask will start to set after 5 minutes from the start of the mixing process. NOTE: Cover the nose and lips after the rest of the face. Eyes may be recovered.

4. Before the mask sets completely the positive electrode of the device (anode) (red wire) is to be connected to the facial electrodes which are to be applied to the facial mask on either side of the forehead. Consequently, the electrodes will adhere to the mask itself when it sets and will not move from the correct position. The negative electrode (cathode) is connected to a moistened sponge and placed in direct contact with the skin of the upper back.

5. Leave the mask in place for 10 minutes without connecting the ionisation apparatus.

6. WARNING: Before connecting the ionisation apparatus the mask should be removed from the area around the eyes with the aid of the spatula or an orange stick.

7. If you are using the Casmara ionisation apparatus, the positive electrode is to be connected to the facial electrode discs which are to be applied to the facial mask on either side of the forehead. The negative electrode (cathode) is connected to a moistened sponge and placed in direct contact with the skin of the upper back.

After applying the electrodes and having removed the mask from around the eyes, switch on the appliance and select ionisation programme No. 16. The intensity of the electrodes shall be increased in accordance with the sensitivity of each client. Recommendation for ionization: Frequency: 35Hz. Pulse with 250µs (microsecond).

WARNING: The ionisation process should not last more than 20 minutes.

8. Remove the mask in one piece. WARNING: This technique is not recommended in cases of pregnancy, skin lesions, heart problems (pacemaker) or other implanted electronic devices.

6 PHASE

360° anti-aging phase.

Formulated with a PRO & PREBIOTIC complex, a global 360° anti-aging active ingredient which strengthens the skin's first defensive barrier and fights all the signs associated with aging from inside and out. **DRY OIL** complex nourishing and anti free radical active ingredient. **JOJOBA & BEES WAX** a carrier and long-lasting moisturizer.

**POLLU-BLOCK** prevents the negative effect UV radiation, air pollution and chemical agents have on the skin. It keeps the skin in a protective bubble also it facilitates profound detoxification due to the toxin blocking action and its elimination.

**Method of application:**

Apply with an active massage to the face, neck and neckline until completely absorbed. Give the remains of the ampoule to the customer.
