Eye Perfection MASSAGE GLASSES

It's very important that CASMARA Beauty Centers offer customers more than just a beauty treatment. We must provide customers with a relaxing space that delivers physical and mental well-being, giving them a complete, unique experience.

*To that end, we are complementing the salon eye contour treatment by launching **Eye Perfection MASSAGE GLASSES**: *pressotherapy eyeglasses ideal for starting the treatment with a few minutes of intense relaxation, providing a pleasant sensory experience. Reduces stress and creates an intensely relaxing experience for customers.**

ACTION

- **AIR PRESSURE MASSAGE (pressotherapy)**: helps to enhance drainage and reduce eye bags.

- **VIBRATION MASSAGE**: activates the area, reducing the feeling of fatigue. Particularly stimulates the acupuncture points, creating a very beneficial feeling of calm and relaxation in customers during the treatment.

- **THERMAL MASSAGE (heat)**: helps to reduce stress and enhances the action of cosmetics applied afterwards.

- **INCLUDES CALMING MUSIC** to immerse customers in a state of absolute relaxation. Has an internal memory where you can store music using a USB to personalize it to the customer.

- **ERGONOMIC DESIGN**: the curved shape of the glasses and the cushion material inside allow them to adapt perfectly to the face, maximizing the feeling of relaxation and well-being in customers during the session.

RESULTS

They provide your customers with a deep sense of well-being, as well as correcting dark circles, reducing wrinkle tension and providing an immediate anti-fatigue effect.

Lastly, we must mention the **5 settings**.

As specified below, each setting has a different massage combination, allowing you to adapt to the sensitivity of each customer. Choosing the auto mode is recommended, as it performs a complete massage combining the 3 types, but you can choose 1 of the 5 options according to customer preference.

1. **Automatic Mode**: combines the 3 types of massage (Pressotherapy + Heat + Vibration) + music.
2. **Dynamic Mode**: pressotherapy + heat + music.
3. **Awake Mode**: pressotherapy + heat + music.
4. **Rest Mode**: pressotherapy + music.
5. **Thermal Mode**: heat + music.
