Double-Phase Remover

Bi-phase Makeup Remover

Natural oils & Rose Algae

Double-Phase Remover

Bi-phase makeup remover
*All skin types,
even sensitive skin.*

150 ml

Bi-phase makeup remover (oil and water, O/W), which acts as the **first step for complete facial cleansing**. Gently and instantly removes all types of makeup and impurities accumulated throughout the day.

Its advanced natural formula* removes makeup from the most sensitive parts of the face such as the eye contour, lids, lashes and lips. Highly effective at removing waterproof makeup, eyeliners and long-lasting lipsticks.

Its powerful cleansing action is due to its dual-phase oil and water (O/W) formula.

Containing a perfect combination of **natural oils**, its oil phase deeply yet gently cleanses the skin, removing dead cells and dirt from inside the pores while protecting, moisturizing and softening the outermost skin layers.

Enriched with delicate **rose algae**, its water phase provides an exceptional feeling of well-being by preserving the skin's natural moisture and providing a silky-smooth finish. It's also highly soothing for delicate or sensitive skin.

The result: perfectly **cleansed and makeup-free** skin that's much more **hydrated, protected and balanced, with a soft and velvety finish**.

Main active ingredients

Natural oils : Combination of **highly cleansing and protective** oils from sustainable natural sources such as sugar cane and olive. Due to its high affinity with the skin, it dissolves makeup effectively without irritation, while strengthening the skin's natural barrier and providing intense hydration. Suitable even for oily skin.

Rose algae: Extraordinary marine active ingredient from the Irish Atlantic coast with excellent **protective and moisturizing properties** that soothe sensitive skin, leaving it feeling silky smooth after application.

Mallow extract: Active ingredient with **moisturizing and softening** properties that provides an immediate feeling of comfort. Helps minimize redness and rebalance sensitive skin.

Double-Phase Remover

Who is it suitable for?

Suitable for removing makeup gently and effectively from **all skin types, even sensitive skin**. Fragrance-free and alcohol-free formula suitable for sensitive areas such as the eye contour, lids, lashes and lips.

Benefits

- **Perfectly cleansed skin:** easily and effectively removes all types of makeup, even waterproof formulas.
- **Gentle on the eye contour, lids, lashes and lips.**
- Instantly **hydrated skin:** reduces transepidermal water loss.
- **Softer skin** with a pleasant feeling for the most delicate skin types.
- **Skin protected** against external agents.
- **Extraordinary sensoriality:** provides instant comfort and well-being with a velvety-soft finish.

How to use

Use daily, morning and evening, as the first step in your facial cleansing routine to remove all makeup and impurities.

Application method

- 1** Shake the product to activate both phases of the formula before use.

- 2** Apply Double-Phase Remover to a cotton wool pad or muslin cloth.

- 3** Gently wipe over the lids, lashes, lips and face to remove makeup. For the eyes, we recommend holding a cotton wool pad or muslin cloth over closed eyes for 5 seconds to help the product work on the lashes. Then gently wipe to remove all traces of makeup.

- 5** Finally, we recommend rinsing with plenty of water after use. For optimal skin cleansing, double cleanse with your usual Casmara cleanser.
