## Renewal Night Cream

30 ml 1 fl. oz.

A lightweight and **highly renewing** night cream .An exclusive formula with pure stabilized retinol in **two concentrations, 0.15% or 0.3%**, in order to adapt the treatment to the retinization status of each skin.

Its enhancing action visibly reduces the signs of aging and photoaging, recovering the skin's natural beauty. Its carefully selected blend of active ingredients complements and enhances retinol's action, maximizing its impact on the skin.

It diminishes the quantity and depth of wrinkles, fades dark spots, while also firming and retexturing the skin. The result is renewed, **smooth skin with improved texture and a visibly younger appearance.**

### MAIN ACTIVE INGREDIENTS

**PURE RETINOL:** Highly renewing.

**HYALURONIC ACID:** Rehydrating.

**SQUALANE:** Recovery.

### WHO IS IT SUITABLE FOR?

Suitable for all skin types, regardless of prior exposure to retinoids.

### APPLICATION METHOD

Apply at night, as a first product of the night skin routine to a cleansed face, neck, and décolleté.

Apply with progressive frequency based on the retinization protocol described below on non-retinized skin and daily if the process has been completed.

### WARNINGS FOR USE

- Avoid contact with eyes and mucous membranes.
- In case of continued irritation, discontinue use.
- A change in color does not affect its effectiveness.
- Avoid use during pregnancy and breastfeeding.
- Avoid sun exposure and always use photoprotection.

## Renewal Day Cream SPF50

50 ml 1.7 fl. oz.

### Anti-aging day booster moisturiser with SPF 50.

Its exclusive formula is enriched with Retinol-v (bakuchiol), stabilised vitamin C and hyaluronic acid. A perfect fusion of pro-age active ingredients that perfectly matches the night treatment with pure retinol to help boost results.

An extraordinary dense but fast-absorbing texture to complement the action of retinol, treat, protect, and soothe the skin while preventing photoaging.

Helps correct the signs of aging by acting primarily on wrinkles, firmness, and uneven tone.

### MAIN ACTIVE INGREDIENTS

**RETINOL-V:** Anti-aging and renewing.

**STABILIZED VITAMIN C:** Revitalizing and firming.

**HYALURONIC ACID:** Rehydrating.

### WHO IS IT SUITABLE FOR?

Suitable for all skin types, including sensitive skin.

### APPLICATION METHOD

Apply to face and neck during the day until completely absorbed as the final step of your daily beauty routine.

### RECOMMENDATIONS

As it is such a powerful active ingredient, pure retinol must be used according to certain guidelines, and professional advice is key in order to adapt the treatment and the concentrations and frequency to the needs of each skin.

To initiate use or increase the concentration, it is necessary to follow a retinization protocol to progressively accustom the skin to its action. If the protocol is not followed correctly, it can sensitize the skin, causing reactions such as irritation, flaking or dryness. Consult Casmara's retinization protocol.
